WHY TALK OF CLIMATE CHANGE?

- Is impacting NOW, not just in future
- Is the joint responsibility of Businesses, Governments & Communities
- All need to work together to ensure ***workable & sustainable*** solutions implemented soonest
- It's not all bad news. There are many new business opportunities opening up, e.g. GBCSA , RE/AE, "Green" equipment, etc.

SUPPORTED BY

DURBAN'S CLIMATE CHANGE SUMMIT

INDUSTRY'S GREEN GROWTH

SUMMIT AIMS & OBJECTIVES

- To highlight CC as a real & present ***economic*** issue, in addition to the standard interpretations
- To highlight Business & Government leadership in this area
- To launch the United Nations Durban Partnership Program aimed at helping Businesses respond & invest
- Help set a Durban partnership platform for Government & Business to acknowledge each others roles & work together.
- To see Businesses, both large & SMME's take greater account of CC challenges, plus the new business opportunities as they emerge
